CABINET OPENING DIMENSIONS

Illustrations specify dimensions of vertical stiles and horizontal rails, inset toe kick, and standard interior opening heights. When selecting cabinetry for installation above or near any appliance, refer to the appliance manufacturer's specifications for clearance and venting requirements.

FULL OVERLAY DIMENSIONS

Full Overlay (FOL) doors are sized to cover nearly all of the cabinet face frame. A Full Overlay door style requires decorative hardware. To facilitate proper door operation, include at least a 1" filler between the hinged side of a Full Overlay door and deeper adjacent objects including cabinets, walls, appliances, and countertops.

PARTIAL OVERLAY DIMENSIONS

Partial Overlay (POL) doors are sized to show about an inch of the cabinet face frame, giving the door some visual depth. A Partial Overlay door style does not require decorative hardware.

The manufacturer of Simply Woodmark Pro warrants to the original residential or commercial purchaser that all Simply Woodmark Pro cabinets and accessories, are free from defects in materials and workmanship for the following durations, subject to the limitations set forth below:

Original residential purchaser: An “original residential purchaser” is defined as any person who purchases the cabinetry for personal use in his or her private residence. The duration of this limited warranty begins at the date of delivery to the residence and extends until such time as that residential purchaser no longer resides at the residence. “Residential purchaser” extends to any person who owns and resides in the residence where the cabinetry is installed, for whom the cabinetry is purchased by a contractor, remodeler or other person/entity, except in commercial applications defined below.

Original commercial purchaser: An “original commercial purchaser” is any person or entity, including but not limited to landlords, leasing companies, contractors, remodelers, and private or public businesses, who purchases the cabinetry for installation and use in in any location that will be leased or used as a rental unit, or used for any other commercial or industrial application. CARE & CLEANING

While our finishing processes promote durability, care should be taken to preserve the original factory finish:

- Wipe up spills immediately
- Use mild soaps only
- Be sure to read all cabinet care guidelines and cleaning product instructions carefully

Use a touch-up stick to fill any scratches or nicks and remove excess residue, leaving a smooth surface. Touch-up kits are included with every sink base cabinet or can be ordered separately as needed.
