

Countertop Calculator Tips

Use this tool to help calculate countertop widths, overhang dimensions, and appropriate bowl placement. The following is a step-by-step guide for determining countertop measurements for the Vanity shown below using the Calculator.

Directions: Open & Save the Countertop Calculator to your computer. Start from the left of your design and work to the right, entering each cabinet or filler as a separate item. Note that there is a sink present on the 36''w cabinet.

Questions will be asked & answered based upon need. If a question is grayed out, it is not applicable in your design.

One finished, click *Calculate*.
