Corner Wall cabinets range in height from 18” to 48”.
Corner Wall cabinets must be ordered hinged left or right.

To ensure proper door function, cabinets or other design elements deeper than 12” should not be placed on either side of the Corner Wall cabinet.

If the Corner Wall cabinet is deeper than the adjacent cabinets, fillers are recommended for placement left and right of the Corner Wall to ensure proper door operation on standard depth wall cabinets.

For a finished, decorative look add Overlay Fillers (Full Overlay door styles) to Universal Fillers or Decorative Blocks to Fluted Beaded Fillers.

Wall Top Hinge cabinets are 30" or 36" wide, 15" or 18" high and 12" or 24" deep.

Hanover in Breeze, Cascade and Drift features a door with vertical grain direction. All other door styles use a standard wall door in horizontal orientation which causes rails, stiles and insert panel grain direction to differ from standard wall cabinets.

For Increased Depth cabinets, please refer to the installation notes listed in the Increased Depth Construction Option section.
